An Adult Must Be Present At Residences. For on-site service provided at a residence, an adult must be present at all times during the service technician's visit.

Assistance You Must Provide. The service technician must receive full access to the covered equipment and (at no cost to ServiceConnection) have working space, electricity, and a local telephone line. If these requirements are lacking, ServiceConnection is not obligated to provide on-site service. Customer is responsible for backing up data prior to ServiceConnection service call.

If You Miss The Service Visit. If you or your authorized representative(s) are not at the location when the service technician arrives, we regret that the service technician cannot service your covered equipment. The service technician will leave a business card to let you know he or she was there. If this occurs, you may be charged an additional charge for a follow-up service call.

Customer Replaceable Units and Whole Unit Replacement. If the telephone technician determines that the defective equipment is equipment that is easily disconnected and reconnected, such as a monitor, hard drives in portable computers, or any other component designated from time to time as a component that may be replaced by the customer, you may receive such component to install yourself without a service technician arriving on site (referred to as a customer replaceable unit or "CRU"). Also, if the telephone technician determines that the defective equipment is equipment that should be replaced as a whole unit, a whole replacement unit with a prepaid return mailing label for the return of the defective equipment may be sent directly to you. You are required to return the defective equipment within five (5) calendar days or ServiceConnection will charge you for the replacement equipment. If the telephone technician determines that the defective equipment is one that is not easily disconnected and reconnected, you authorize ServiceConnection's service technician to act as your service agent to deliver the replacement equipment to you in person and to return the defective equipment to ServiceConnection. Please refer to your Service Plan or Schedule I for specific hardware/software contract coverage and limitations.

Repairs will be performed in the following manner. If any covered equipment requires service, one of our technicians will make an initial diagnosis of your problem and will attempt to help you resolve it by telephone. In most situations, this will be the fastest way to respond to problems with your covered equipment. If your problem can be resolved with a CRU (e.g., internal keyboards, memory, certain disk drives, certain CD-ROM drives, and other easily replaced parts that you are capable of replacing), we will ship these parts to you for replacement by you. You are responsible for packing the replaced CRU in the shipping container that contained the replacement part, affixing the shipping label to the package, and scheduling pick-up with the authorized courier listed on the shipping label for return to us within five (5) calendar days or ServiceConnection will charge you for the replacement equipment.

If the required parts are available at the service center, we will attempt to repair and return the covered equipment to you within the time specified within your contract. If required parts are not available, return of your equipment may be delayed. Your signature will be required upon delivery when we return your covered equipment.

If we repair your product, you understand and agree that we may replace original parts with parts from the original manufacturer or a compatible manufacturer. Replacement parts or products may be new or like new and will be in good working order and minimally functionally equivalent to the item replaced. When covered equipment or its parts are replaced, each replaced item becomes our property and the replacement becomes your property (or the owner of the covered equipment, if different).

In addition to your other responsibilities under this Agreement, you agree to do the following when obtaining service: (a) follow the packing and shipping instructions included with the shipping container; and (b) return the covered equipment through the shipper we designate within five (5) calendar days of the day you receive the shipping carton. We are not responsible for damage, or risk of loss due to improper packing or use of a shipper that we do not designate.

Warranty Parts. If the telephone technician determines that your covered equipment needs a replacement part, you authorize ServiceConnection to act as your service agent to handle the delivery and return of the warranty parts necessary to render on-site repairs. You may incur a charge if you fail to return non-working, unused or warranty parts to ServiceConnection. If the replacement unit is not delivered in person by a service technician, you may incur a charge from ServiceConnection if you fail to return the non-working, unused or warranty parts to ServiceConnection within a five (5) calendar day period. Please refer to your Service Plan or Schedule I for specific hardware/software contract limitations.

Shipment. In the case of replacement units or warranty parts to be shipped to you, you will take delivery from ServiceConnection or its agents. You authorize ServiceConnection to act as your agent to handle the delivery and return of non-working, unused or warranty parts to ServiceConnection.

Payment Terms. All invoices are payable upon receipt. If payment is not received within ten (10) days you will pay an additional fee of 1.5% per month or as set forth in your invoice.

Taxes. Customers are responsible for all sales and use taxes as may be applicable in their state.

ServiceConnection Return Policy. You may cancel a ServiceConnection Plan under the following circumstances: (1) if the service plan was purchased within thirty (30) days of cancellation request and the plan has not been used; (2) if you purchased the incorrect Service Plan and are replacing such plan with the correct Service Plan; (3) if you return the equipment being covered within the first thirty (30) days of purchase and need to cancel the corresponding ServiceConnection plan; (4) if you decide you would like an increased level of coverage, as long as the original Service Plan purchased was purchased within thirty (30) days; or (5) if your location is outside the response time of contract purchased and the service plan was purchased within thirty (30) days of cancellation request. Shipping and handling charges will not be refunded. Plans cannot be returned after thirty (30) days, whether or not service has been provided against the contract.

Transfer of this Agreement. Subject to the limitations set forth in this Agreement, you may transfer your Service Plan to anyone who acquires all of the covered equipment subject to the Service Plan before the termination date of your contract, provided you are the original purchaser of the covered equipment and the applicable Service Plan, or you have purchased the covered equipment and your Service Plan from its original owner (or a previous transferee) and have complied with all the transfer rules in this Agreement.

Please note that if you move your covered equipment to a geographic location in which the Service Plan coverage is not available at the same price as you paid for this Agreement, you may incur an additional charge to maintain the same categories of service coverage at the new location. If you choose not to pay such additional charge, your Service Plan may be automatically changed to categories of service that are available at the original purchase price or a lesser price in such new location with no refund available. Additionally, if (i) you transfer your Service Plan to a buyer who will move the covered equipment to a geographic location in which the service coverage is not available at the same price as you paid for this Service Plan, or (ii) if the transferee (i.e., the acquirer) of this Agreement wishes to change the service coverage, then you may incur an additional charge for such transfer.
