

BlueSecure® TRADE-UP PROGRAM

This one of a kind program allows you to trade in your legacy wireless LAN equipment for market leading 802.11n-ready solutions from Bluesocket. Upgrade to the newest 802.11n Wi-Fi standard while protecting your existing wireless LAN investments:

Depending on your current wireless deployment, you can:

- Trade-UP for all new Bluesocket Controller and Access Points
- Trade-UP for 802.11n-ready Bluesocket Controllers and continue to manage 3rd party Access Points*
- Trade-IN your Fat APs for a Bluesocket wireless and mobility solution

Upgrading your wireless network has never been easier!

*Bluesocket manages the widest range of 3rd party Access Points. Please contact your Bluesocket sales representative or reseller for a complete list.
