

With ServiceConnection, you can focus on your core business instead of day-to-day IT tasks.

- *Manage TCO by minimizing routine and unexpected repair and maintenance costs*
- *Enjoy the benefits of big-business IT services without hiring a large in-house IT department*
- *Rely on a single source for acquiring, configuring, and implementing the right technology*
- *Move from a reactive to a proactive approach to IT*
- *Provide mobile users the unique support they need*
- *Predictably budget monthly IT costs with fixed-rate IT service contracts*
- *Legally dispose of obsolete technology*
- *Preemptively protect your IT systems against failure*

Finally, Big-Business IT Services at SMB Prices

Every day your small business faces the same IT challenges big businesses face. However, unlike the big guys who rely on large in-house IT staffs to keep everything running smoothly, you are left scrambling for a solution and often run into limited options when choosing an IT service partner.

ServiceConnection understands small-business IT. That's why we provide you with all the service choice and flexibility enjoyed by large companies at prices that fit your business.

We Support IT

Choose from a broad selection of support and maintenance plans for desktops, notebooks, servers, workstations, PDAs, and other computer equipment. Our extended warranty plans, repair services, and spare-part sourcing minimize downtime by getting your systems back up and running faster.

We Connect IT

Let us install your new IT equipment for you. Your staff can stay focused on daily tasks while we quickly implement everything from desktops to data centers. Not sure what you need? Our assessment services can uncover network inefficiencies and help you find the right solution. We can even help you legally dispose of your obsolete equipment.

We Configure IT

Take the pain out of rollouts by having your new systems arrive fully configured with custom hardware, software, and even asset tags.

We Manage IT

Stop downtime before it starts. Our preventative managed services protect against common performance obstacles like viruses, spam, missed data backups, and security breaches.

Call today to discover how we solve IT for your small business.
